

SyncBraille Display

The SyncBraille is one of the smallest, lightest, and most affordable, portable Braille displays in the world.

Use it as a portable Braille display with the Voice Sense NoteTaker or connect it to a PC with your favourite screen reading software.

You can read content using the scroll buttons. No need to use the keyboard of The Voice Sense or the PC.

When editing a text, the cursor routing keys allow you to jump to the position you want to edit quickly and easy.

Specifications:

- Number of Braille cells: 20
- Interface: USB 2.0
- Size: 18.3 x 8.5 x 2cm
- Weight: 280 g

Jaws compatibility.

The SyncBraille is also compatible with Jaws (versions 10 or higher) on a PC with Windows XP, Vista and Window 7 for either 32 bit or 64 bit versions.
