

Braille Sense U2

- A Powerful Educational Tool:

In addition to the Bilingual features and Sense Dictionary for language practice and learning, Braille Sense U2 offers fraction calculation and Nemeth Braille code entry into a fully functional scientific calculator. Our unique built-in LCD allows sighted teachers and parents to view a student's progress while the student uses Braille Sense U2.

- Created with the Deaf-blind in mind:

HIMS's unique LCD display has facilitated easy and natural communication with the deaf-blind for several years. Now with an added vibrate Motor, a deaf-blind person can be alerted to receive messages or errors in input or navigation.

- Entertainment on the go:

Get connected anywhere, anytime through Bluetooth, Wi-Fi, wire or 3G USB Modem. Enjoy a clear and powerful stereo audio listening experience with 11 equalizer settings. With an estimated 17 hours of battery life, any user can easily carry the Braille Sense U2 all day without the need for recharging
